## **SUMMARY OF LOCAL BENEFITS FROM STATE ASSISTANCE**

This section presents a review of the programs, which provide local units of government with assistance in financing their road and street improvement programs.

Two categories of state assistance are covered: Direct State Assistance and Special State Assistance Programs. Both Direct State Assistance and Special State Assistance programs provided additional funding through the passage of Illinois FIRST in FY 1999, Public Act 91-20.

The categories of assistance are briefly described with an accounting of the allocation of funds to the local units as prescribed by the enacting legislation for each program.

### Direct State Assistance

With the passage of Illinois FIRST in Public Act 91-20, local governments received a substantial increase in motor fuel tax revenues. Motor fuel tax allotments to local governments has increased from the FY 1999 level as shown in the table below.

<b>Fiscal year</b>	<b>Allotments</b>	<b>% increase over 1999</b>
1999	\$498,634,692	
2000	\$572,500,000	14.8%
2001	\$606,364,006	21.6%
2002	\$609,126,448	22.2%
2003	\$615,398,413	23.4%

## Special State Assistance Programs

Consolidated County Assistance -- Every County, excluding Cook County, shared in \$21.8 million of additional state assistance under this program in FY 2003.

Needy Townships — 842 township/road district units shared \$10 million in additional state assistance from this program in FY 2003.

Hi-Growth Cities -- 210 cities received a share of \$4 million distribution of additional state assistance provided by this program in FY 2003.

Locally Designated Truck Access Routes — 35 projects were funded under this program amounting to \$5.2 million in additional state assistance in FY 2003.

Economic Development Access Roads — A total of \$3.6 million were committed to 8 projects on local system roads under this program in FY 2003. State funds totaling \$22.4 million were actually obligated during FY 2003 for economic development projects.

State Matching Assistance -- \$4 million was distributed to 62 counties in FY 2003.

Township Bridge -- \$15 million was distributed for local bridges in FY 2003.

Grade Crossing Protection Fund -- \$27 million was transferred from the Motor Fuel Tax Fund to the Grade Crossing Protection Fund in FY 2003 for railroad crossing improvements for local governments.

Additional State Assistance Programs Summary Table

<u>Category</u>	<u>FY 2003 Assistance</u>
	(\$ Millions)
Consolidated County Assistance	\$ 21.8
Needy Townships	\$ 10.0
Hi-Growth Cities	\$ 4.0
Locally Designated Truck Access Route	\$ 5.2
Economic Development Access Roads	\$ 22.4
State Matching Assistance	\$ 4.0
Township Bridge	\$ 15.0
Grade Crossing Protection Fund	\$ 27.0
	<u>\$109.4</u>

Total FY 2003 State Assistance to Local Governments

	(\$ Millions)
MFT Formula Allocation	\$615.4
Additional State Assistance Programs	<u>\$109.4</u>
Total State Assistance	\$724.8

## **DIRECT STATE ASSISTANCE**

The revenues which are deposited into the Motor Fuel Tax Fund are shared with local units of government after deductions are made for the Diesel Differential, Grade Crossing Protection Fund, the State Boating Act Fund, Refunds, the Vehicle Inspection Fund, administrative expenses, Secretary of State expenses, IFTA payments to other States and Court of Claims expenses deemed payable from Motor Fuel Tax revenues.

Through the 1990s, the state shared 41.6 percent of revenues from the state motor fuel tax with counties, townships and municipalities to support local road and bridge construction. In FY 1999, the motor fuel tax generated \$498.6 million in transportation funds for local governments across Illinois. With the passage of Illinois FIRST in Public Act 91-20, local governments' share of motor fuel tax funds increased from 41.6 percent to 54.4 percent, providing \$615.4 million in FY 2003 for counties, townships and municipalities.

Added motor fuel tax allocations for local governments will replace \$193 million of the sales tax transfer previously distributed to local governments and will provide a net \$435 million increase in direct state assistance over five years. The funds received in FY 2003 reflect a 23.4 percent increase in revenues for local governments.

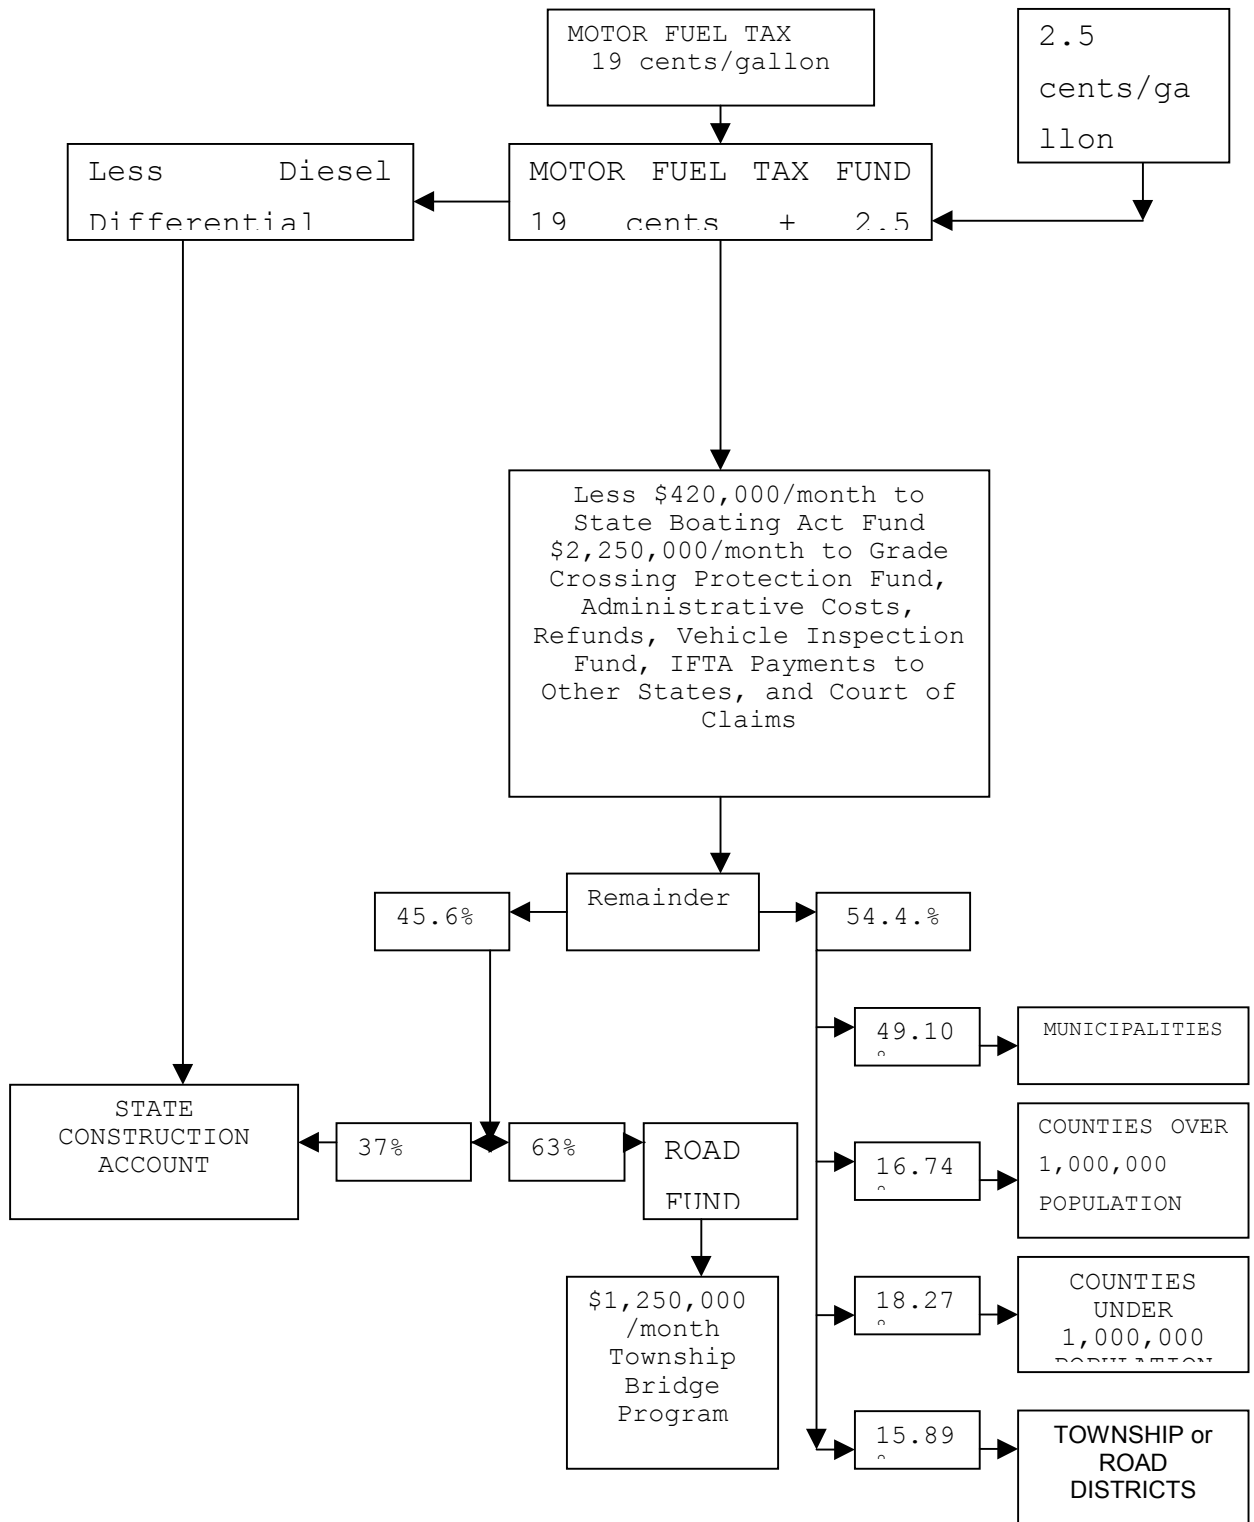

The allocation of Motor Fuel Tax Fund revenues to local governments is prescribed by statute (35 ILCS/505-8). After the previously mentioned deductions are made, the remaining amount is allocated 45.6 percent to the state (of which 63 percent goes into the Road Fund, part of which funds the State Assistance Programs enacted in 1946, 1989, and 1999) and 54.4 percent to local units of government.

The 54.4 percent allocated to locals are further distributed:

- ◇ 49.10 percent to be shared by all municipalities of the state;
- ◇ 16.74 percent to be shared by all counties with a population in excess of 1,000,000;
- ◇ 18.27 percent to be shared by all counties with a population of less than 1,000,000;
- ◇ 15.89 percent to be shared by all townships/road districts.

The distribution process is shown on the chart on the following page. The amount of direct assistance distributed to local units is shown by county on the following pages. Coding for counties is type 1, for townships type 2, and for municipalities type 3

## **COUNTY CONSOLIDATED PROGRAM**

State assistance to counties initiated in the 1989 revenue program included local benefits categories of Needy Counties, Assessed Valuation Loss Compensation, and High-Growth Counties. These categories have been combined into the County Consolidated Program.

Assistance has been increased from \$6.125 million by 256 percent to \$21.8 million per year.

The assistance was distributed among the counties (excluding Cook County) with \$8 million shared equally and \$13.8 million distributed based on registered vehicles utilizing the 1998 Motor Fuel Tax formula for distribution.

The tabulation on the following pages demonstrates how \$21.8 million of County Consolidated assistance was distributed.

## **ASSISTANCE TO NEEDY UNITS OF GOVERNMENT – TOWNSHIP/ROAD DISTRICTS**

Needy townships/road districts are those that levy the maximum tax rate but do not generate enough revenue to meet a minimum level of assistance per mile. The allocation to needy township/road district units is determined by the difference in locally generated revenue at the maximum tax levy rate without referendum of 0.165 and a minimum level of revenue of \$1,547 per mile.

This program will be available to units who levied the maximum rate of 0.165 without referendum for road and bridge purposes in 1996. Those that qualified in 1989, but whose 1996 tax rate was less than 0.165, will receive a half share.

State assistance more than doubled from \$5 million annually during FY 1990 - 1999 to \$10.014 million during FY 2000 - 2004 for needy townships and road districts to bring them to the minimum per mile level of assistance.

This program will be distributed to the 842 units with the lowest ability to generate revenue on a per mile basis. The eligible townships and assistance levels will be constant for the five-year life of this program.

The tabulation on the following pages demonstrates how \$10,014,300 was distributed in FY 2003 to the township/road district units eligible for this program.

## **HIGH GROWTH CITIES ASSISTANCE PROGRAM**

Under Illinois FIRST, the High Growth Cities Program is a \$4 million per year program, which provides funding to municipalities over 5,000 population experiencing above-normal population growth. The distribution formula was developed jointly by the Illinois Municipal League (IML) and the department.

Under previous guidelines, municipalities having an increase in population greater than 5 percent, either from 1980 to April 1, 1989 or from 1990 to June 30 of each year, have shared in this program. Additional cities have qualified when they met the 5 percent requirement via special census and have been automatically added to the list. The department's FY 2002 distribution was the last distribution for this program prior to our utilization of Census 2000 data. A total of 126 municipalities qualified for this program in FY 2002.

The Census 2000 has increased the number of cities that qualify for the High Growth Cities Program from 126 to 210. Based on recommendation by the IML, municipalities that had previously qualified for this program, but are no longer experiencing significant growth will be phased out through FY 2007. Funding is distributed among eligible cities based on their current population and per capita increases compared to all eligible cities.

State assistance has increased by 113 percent from \$1.875 million in FY 1999 to \$4 million per year for FY 2000 - 2004.

The 210 cities to which the \$4 million was allotted in FY 2003 and the counties in which they reside are listed on the following pages.

### **LOCALLY DESIGNATED TRUCK ROUTE PROGRAM**

The program was to provide \$25 million during FY 1990 - 1994 for improvements to local truck routes to upgrade local access to the Designated State Highway Truck Route System for 80,000 pound trucks. In July 1992 the department and the County Engineers Revenue Fact-Finding Committee agreed to transfer \$2.5 million from this program to the Economic Development Access Road Program. Routes would be designated as heavy truck routes by the local agency and capital improvements on these truck routes would be eligible for state assistance. The program was extended to FY 1995, FY 1996, FY 1997, FY 1998 and FY 1999 when an additional \$5 million, \$5 million, \$5 million, \$4.375 million and \$4.7 million, respectively, were scheduled. State assistance to local governments was increased by 40 percent over the FY 1990-1994 annual average to \$7 million annually during FY 2000-2004 for improvements to local designated truck routes.

The state will provide assistance up to \$30,000 per lane mile and \$15,000 per intersection. State participation will not exceed 50 percent of the cost of the entire project or \$600,000, whichever is less.

The tabulation on the following pages account for \$5,214,398 in state funds provided for the Local Truck Route Program that partially funded improvements in FY 2003.

**FY 2003 TRUCK ACCESS ROUTE PROGRAM (TARP)**

<b>Local Unit</b>	<b>Route</b>	<b>Location</b>	<b>Amount</b>

## ECONOMIC DEVELOPMENT ACCESS ROAD PROGRAM

The FY1990 - 1994 Highway Program included \$25 million for the Economic Development Access Road Program of which at least \$8 million was to be for local system projects. In July 1992 the department and County Engineers Revenue Fact-Finding Committee agreed to transfer \$2.5 million from the Truck Access Road Program to this program. The \$10.5 million was available to local units of government for highway improvements to support economic development, either by attracting new jobs or retaining existing jobs. A 50 percent match from a local government unit or developer is required, as well as a commitment to locate in the area from the business/industry involved. Funding for the program was extended for FY 1995 through FY 1999, with an additional \$5 million being scheduled for each year. With the passage of Illinois FIRST in Public Act 91-20, the program doubled to \$10 million in FY2000, FY2001, FY 2002 and FY 2003. Economic Development Access Road Program funds of \$3.6 million were approved in FY 2003. This makes the total of state funds approved for projects \$152.6 million over the fourteen-year period the program has been in existence.

Of the approved total, \$120 million of state funds have actually been obligated with \$22.4 million being obligated during FY 2003. About \$32.6 million of state funds have, therefore, been approved for projects but not yet obligated.

Listed on the following three pages by county and then by municipality are:

- ◇ The 8 local system projects for which Economic Development Access Road Program funds were approved during FY 2003, and
- ◇ The 25 local system projects for which the state funds were obligated during FY 2003 through the execution of state-local joint agreements or the awarding of state contracts.

## **STATE MATCHING ASSISTANCE (FORMERLY FAS MATCHING ASSISTANCE)**

Prior to passage of the Intermodal Surface Transportation Efficiency Act of 1991, each county in the state received an annual allotment of Federal-aid Secondary funds which could be used to fund up to 75 percent of eligible projects. However, some counties did not have sufficient tax base to generate the local funds needed to match the federal-aid funds. The State FAS Match Assistance Fund was established in 1960 to address the problem.

After the fund was established the counties became participants in additional federal-aid programs: Federal-aid Urban System, Highway Bridge Replacement and Rehabilitation, and various Federal-aid Safety programs, which require local match. In 1985 the policy covering the use of State Matching Assistance Funds was changed to allow their use to match any federal-aid funds. They can also be used to match Federal-aid funds provided through the 1991 Act.

The state provided \$4 million in FY 2003 to assist the counties in matching federal-aid funds where there was an inability to generate sufficient matching funds from local taxation. To qualify to receive State Matching Assistance Funds a county must meet certain criteria.

1. The county must be unable to generate sufficient matching funds to fully utilize its federal-aid allotment according to Chapter 605, Act 5/Section 5-603 of the Illinois Compiled Statutes,
2. The county must assess at a minimum rate of .045 in an effort to generate local matching funds.

The calculation of need for State Matching Assistance is based on a 57 percent federal 43 percent local matching ratio. Although 80/20 matching ratio is the normal maximum allowable for STP-Rural funds, it is believed that need based on a 57/43 matching ratio is more equitable since the counties have other federal-aid programs (HBRRP, Safety, and STP-Urban) that require local match.

The program was distributed among the counties based on the difference between the amount the county needed to match its federal-aid dollars and the amount it was capable of raising locally. However, the allocation to any county assessing .045 or more, but less than the .050 maximum is reduced proportionately.

In FY 2003, State Matching Assistance Funds were provided to 62 counties. The tabulation on the following pages shows the FY 2003 state match allocation and the current account balance for each county.

## **TOWNSHIP BRIDGE PROGRAM**

The General Assembly established the Township Bridge Program in 1976 to lend assistance to townships and road districts in addressing the huge backlog of bridge needs (605 ILCS 5/6-901). The General Assembly annually appropriates \$15 million to IDOT for this program. The department, through the Bureau of Local Roads and Streets, allots this amount to the counties for use by road districts or townships for the construction of bridges 20 feet or more in length. One dollar of local funds is required for every four dollars of funds allotted.

Highway Commissioners, in cooperation with the county superintendents of highways of their respective counties, select the bridges to be constructed according to the following priorities:

- 1<sup>st</sup> - safe and expeditious transportation of school pupils;
- 2<sup>nd</sup> - movement of agricultural equipment and products;
- 3<sup>rd</sup> - rural free delivery mail routes;
- 4<sup>th</sup> - meeting anticipated traffic need of the general public.

The legislation stipulates that any township or district that does not levy the maximum Road and Bridge Tax rate without referendum shall utilize no allocation. Road districts that are ineligible for Township Bridge funds due to limitations by a property tax extension under the Property Tax Limitation Law (35 ILCS 200/18-185) may become eligible to expend Township Bridge funds if one of the following two criteria are met:

- ◆ The road district was levying at or above the required rate and continues to levy the maximum allowable amount after the imposition of the property tax extension limitation, or
- ◆ The road district levies at or above the rate required for eligibility by Section 8 of the Motor Fuel Tax Law.

Counties who have not levied such taxes must let the allocated funds lapse. These funds, along with any other funds not used within two years of allocation, constitute a lapse pool fund. Each district submits candidates for these lapsed funds comprised of bridges that would exceed the normal funding criteria. The department based on relative need makes selection of projects from these candidates.

Distribution of the funds has been considered to be equitable and the lapse pool fund has added an extra dimension by allowing improvement of many larger bridges. The overall condition of township bridges has greatly improved since the inception of the program.

The tabulation on the following pages shows the distribution of township bridge allotments for this program in FY 2003. The next section shows the location and cost of 112 bridges improved or replaced in this program during FY 2003. The 112 bridges improved or replaced amounted to a total cost of \$8,973,586.

## GRADE CROSSING PROTECTION FUND PROGRAM

In FY 2003, the Grade Crossing Protection Fund (GCPF) Program received \$27 million in state highway funds through allocations from Motor Fuel Tax receipts. During FY 2003 the Illinois Commerce Commission (ICC) entered orders obligating \$24,312,561 from the Grade Crossing Protection Fund for highway-rail crossing improvements. The total amount ordered was less than the amount received because of the need to reserve funds for previous commitments on grade separation projects in Franklin Park and Granite City.

Assistance from GCPF in the amount of \$7,517,810 was obligated for warning device improvements at 111 at-grade highway-rail grade crossings. In addition, remote monitors were installed at 1,100 locations and crossbuck and yield signs were installed as part of a systematic crossbuck replacement program at 140 grade crossings on the BNSF.

\$828,213 was obligated for other types of grade crossing improvements (construction of access roads, approach improvements, etc.) at 20 highway-rail grade crossings.

An additional \$15,966,538 was obligated for the construction or reconstruction of 11 highway-rail grade separation structures.

Attached is a list of projects, by category, for which the ICC obligated assistance from the Grade Crossing Protection Fund during FY 2003.

## WARNING DEVICE IMPROVEMENTS

County	Location	RR	Number of Crossings	GCPF Amount
Adams	Quincy	BNSF	1	\$121,829
